

BrightSourced Energy LEADING UTILITY PROCUREMENT SERVICE SAVES RUSTIC TO REGAL 27% ON THEIR ELECTRICITY COSTS.

Rustic to Regal is a thriving tapas restaurant & bodega in the heart of Thornton, Cleveleys Lancashire serving Mediterranean dishes from traditional paella to sharing platters. Additionally they regularly host events such as Tapas & Quiz evenings and Bank Holiday Food Celebrations.

Since the re-structure of the business they were suffering costly electricity bills and were anxious to cut spend as quickly and efficiently as possible.

THE BRIEF:

Rustic to Regal wanted to reduce their electricity spend after experiencing increased costs due to a business re-structure. They needed to concentrate on building the new business and simply didn't have the time or manpower to sift through the plethora of energy suppliers for the best deal.

THE SUCCESS:

Through a thorough procurement process BrightSourced Energy were quickly able to source and negotiate best prices saving 27% on their electricity bills.

BrightSourced Energy arranged everything from the termination of their existing contract to the switching of suppliers, leaving Glen and the team free to concentrate on their new venture.

In 2016 we decided to move into the tapas market and found the change brought about high electricity costs.

We were contending with trying to build a new business and just didn't have the time or the manpower to source a new supplier and sought the help of BrightSourced Energy.

As well as taking away all the hassle, they managed to save us a significant amount on our electricity bills which was more than we could have hoped for.
